Stuart C. Melvin, President
Tri-Stat Cold-Formed Steel Components, I.I.C
140 Arnold Drive, Suite 1
Shepherdsville, KY 40165

Dear Sir:

We would like to thank you for supplying us with the light-gauge steel roof trusses for the Cathedral High School and Hancock County Library projects. Your services rendered before and after the sale of the product were excellent. Your trusses were of the highest quality and were delivered in a timely manner. The technical assistance which you gave us was exactly what was needed.

We appreciate the relationship that we developed on these two projects and look forward to working with you successfully again on future projects.

Sincerely,

A handwritten signature in black ink, appearing to read 'Keith Parker', with a horizontal line extending from the end of the signature.
